Letter of recommendation

Sub: Recommendation letter for Fikir Yibeltal

To Whom It May Concern;

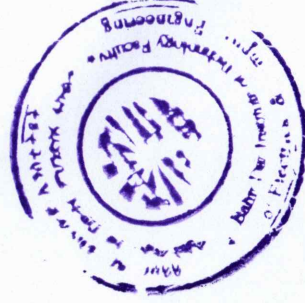

As the department chair holder of computer engineering at the FECE, BiT-BDU, I am writing to you this recommendation letter in support of my student Ms. Fikir Yibeltal and her noble desire to join your organization/institute.

Ms. Fikir Yibeltal has been my student for five years and I have always seen her as a bright and intelligent one. She has been one of the active and best students of her batch since the very first semester and her output in any task she/he has been given are a proof that an ideal student can pursue and excel at his/her other interests as well. She is determined, sharp and analytical to the level where she can even point out the disparities in a teacher's presentation. She is even taking an extra activities in different centers of our institute to satiate her hunger for knowledge. Her final year project was awarded as the best project in our faculty. Ms. Fikir Yibeltal is known to be the life of her batch and is undoubtedly one of the best students in computer engineering at the FECE, BiT-BDU has ever produced.

I feel elated to recommend Ms. Fikir Yibeltal for your organization/institute as I am positive about her hard work and intelligence. I am sure that she will be a proud addition to your organization/institution and continue to be the bright star that she is. In the case of any query or doubt, you can connect with me at mulerce@gmail.com and I'll be happy to solve them.

Best regards,

Mulera Amanuel Tesfome
